**South Florida Connects, Inc.**

Since inception in 2009, South Florida Connects, Inc. (SFC) has the pulse of the community and therefore we are in a unique position to implement the programs that benefit the community the most. But you already know we could not have accomplished so much and impacted so many lives in such positive ways, without your help.

We thank you for all of your efforts to help us meet our goals and accomplish the mission of this great organization. Thank you.

Your generous impact has allowed SFC to focus on the issues that are important to you and your families. We get to focus on helping individuals and families impacted by life events and community affairs that people sometimes have no clue how to navigate.

Our resourceful leadership and volunteers help to make it all happen. We know we are only as strong as our weakest link, so we align ourselves with the best that our community has to offer, because you matter.

You have the best hearts, the best spirit of giving; you are the best at sharing your skills and knowledge, the best at being selfless. We thank our community professionals who continue to give of their skills and their time to help us level the playing field for straight spouses and their families, by bridging the gap in the information and awareness divide. We applaud you because you help to make SFC great.

Since the launch of our monthly Straight Spouse Awareness Radio Outreach Program in November 2011, hundreds of people have had their lives impacted in such positive ways. We continue to receive the positive reports and the words of encouragement.

SFC is causing a greater impact than we even imagined before this outreach program began. But it would not have been so positive if we did not pay attention to the feedback you directed our way. You and your families matter. We are striking a balance and your positive feedback to our various programs proves that SFC is right on track.

There is so much more to do for immigrant and minority straight spouses, but with God's help we will continue to touch hearts and lives, and deliver on our mission, with your needs at the center of any decision we make.

Blessings always!
